

# Longueuil-Montréal Ecosystem

With its strategic geographical position, numerous research centres, skilled labour force and its world-renowned companies, Longueuil-Montréal is a complete innovation ecosystem where smart living, *joie de vivre* and creativity are an integral part of the lifestyle. This ecosystem fosters collaborative innovation in strategic sectors such as aerospace, big data, gaming, artificial intelligence, pharmaceutical, smart transportation, sustainable environment and social economy.

The Greater Montréal area is, of course, well equipped with state-of-the-art research infrastructure, world-class universities and also, facilities and mentorship organizations for start-up and growing companies in a variety of sectors. It is a living and attractive environment for people wishing to evolve in an animated and energizing *milieu de vie*. Longueuil-Montréal creativity, made of the outstanding diversity of talent and people from all over the world, offers a vibrant cultural scene, global leading quality of life and inspiring smart living.

Welcome to Longueuil-Montréal Ecosystem!
