

LUND, a City of Innovation within an Innovative Region

Lund is the place where **tradition and innovation meet**, where distances are short, and the research is among the world's best www.businessinlund.se Lund is part of the Greater Copenhagen region, one of Europe's most innovative and expansive regions. About four million people live here. www.greatercph.com

Lund City is home to about 119,000 people and **Lund University** is ranked among the leading universities in the world. With its 40 000 full time students and thousands of researchers from all over the world, the university shapes the town and its character. www.lunduniversity.lu.se

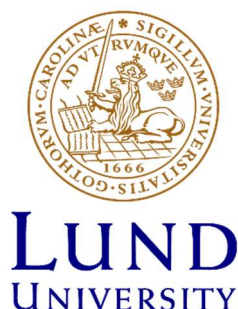

The north east part of Lund is where the HLF Conference will be hosted. Here, a new part of town is being developed next to **Science Village** <https://sciencevillage.com/en/> and the leading **research facilities MAX IV and ESS** as well as the **science parks Ideon and Medicon Village**.

Ideon Science Park has 35 years of experience in developing the public-private partnership to support innovations. Challenge driven innovations is at the heart of our focus, and so we are proud to be named a global partner for UNOPS. www.ideon.se

Medicon Village Science Park speed the transition of promising new life science discoveries from idea to market. The innovation system fosters a creative approach to solving some of today's hardest health problems, by bringing together renowned researchers, vibrant life science companies and healthcare. www.mediconvillage.se
